

Vinit Raut

Work Experience

I have 2.8+ years of professional working experience working around Javascript, CSS, React.js and Node.js.

Software Engineer

June 2022 - Present

63moons

I work on a product that executes large quantity of stock market orders quickly for Institutional investors. The project is built around C++ and Javascript ecosystem. I contribute to the Web UI and backend (Nodejs) part of the project.

Frontend Developer

Jan 2021 - May 2022

The Fast Way

I developed & maintained frontend of multiple projects. Directly worked with the founder and PM to understand product requirements & delivered software solutions. I worked with the Reactjs & Typescript stack during my tenure.

Skills

Here you can find the technologies that I love working with and have build projects around it.

- HTML, CSS & **Javascript**
- **React.js**, Next.js, **Node.js**
- **TailwindCSS**, SASS, MongoDB
- **Git**, GitHub, JIRA, Bitbucket

Project

Jarvis - A employee management platform for HR professionals to manage employees data with authentication and authorization. I am currently building this to try out react-query and supabase.
